

ANTONO GEORGE

SENIOR IT PROJECT & PRODUCT MANAGER

Email: Antono.George07@gmail.com **Phone:** +34 663 464 284 **Location:** Valencia, Spain
Status: Indian Citizen with Highly Qualified Professional (HQP) Visa & Residence Permit **Availability:** Immediate (0 Days Notice)

PROFESSIONAL SUMMARY

PMP and SAFe 5.0 certified Senior IT Project and Product Manager with 16.5 years of enterprise IT experience, including over 6 years directing complex software product lifecycles, cross-functional engineering delivery hubs, and multi-system data transformations. Highly adept at serving as the primary Single Point of Accountability (SPOC) and strategic bridge between senior business stakeholders and technical engineering squads. Proven track record managing global delivery hubs of 150+ developers, designing strict data governance architectures, and leveraging automated metrics pipelines to optimize flow velocity, mitigate project risks, and protect delivery margins.

CORE COMPETENCIES

IT Project & Portfolio Governance

Agile/Scrum Team Leadership

Requirements Elicitation & Scoping

Cross-Functional Stakeholder Alignment

Data Integration & API Management

ServiceNow & Jira Architecture

Business Intelligence (Power BI)

Vendor & Supplier Management

TECHNICAL SYSTEMS INNOVATION & AUTOMATION

Technical Product Lead & Creator
Self-Initiated Technical MVPs (Spark-Agile.com & Poly-Linq.com)

- **Data Integration & Tracking:** Conceptualized, architected, and deployed custom cloud utilities integrating Large Language Models (LLMs) to automatically ingest, process, and parse unstructured text and metrics data streams.
- **System Governance & Schema Design:** Formulated strict typed JSON validation contracts and data schemas at the application boundary perimeter to eliminate data fragmentation, resolve pipeline backpressure, and secure data routing.

PROFESSIONAL EXPERIENCE

Senior Technical Project Manager & Delivery Lead Feb 2025 – May 2026
T-Systems Iberia | Valencia, Spain

- Guided complex, high-visibility international software, infrastructure, and cloud transformation projects across the EMEA region, ensuring absolute alignment with global architecture and governance standards.
- Acted as the central SPOC to decompose ambiguous, high-level corporate product roadmaps into structured, clear, and executable technical delivery phases for engineering teams.
- Managed multi-million euro project budgets, tracked milestone constraints, engineered automated Power BI status pipelines for executive visibility, and resolved process roadblocks to secure targeted delivery margins.

Senior Agile Delivery Lead & Program Manager

Mar 2020 – Feb 2025

T-Systems ICT India | Pune, India

- Spearheaded end-to-end agile software delivery operations for a global technology hub comprising over 150 software developers, managing backend upgrades, data-driven platforms, and core service integration lifecycles.
- Collaborated directly with enterprise data engineering and business analysis groups to map product requirement boundaries, isolate technical cross-dependencies, and manage architectural risks across interconnected systems.
- Enforced rigorous software quality gates, directed comprehensive User Acceptance Testing (UAT), and executed automated release workflows across multiple concurrent parallel tracks to guarantee predictable, high-quality feature launches.

Operations & Systems Infrastructure Analyst

Nov 2009 – Feb 2020

TCS, Tech Mahindra, WNS, Oceans Connect | Pune, India

- Dedicated a decade to monitoring, troubleshooting, and optimizing business-critical enterprise IT infrastructure networks, operating systems (Windows/Linux), and large-scale application server landscapes.
- Functioned as a core technical analyst during pre-2016 operations as an Insurance Consultant, managing structured data validation workflows, claims processing architectures, and compliance updates for international financial accounts under stringent regulatory guidelines.
- Led cross-functional incident response streams, performed deep root-cause data analyses for major international commercial banks, and minimized infrastructure downtime under strict service level agreements (SLAs).

EDUCATION

Bachelor of Commerce (B.Com.)

Specialization: Banking & Finance

Savitribai Phule Pune University, India

PROFESSIONAL CREDENTIALS

Project Management Professional (PMP)® | PM-ID: 3681402 (2024)

Certified SAFe® 5.0 Scrum Master | Scaled Agile Inc (2023)

ITIL® v4 Foundation Certificate | AXELOS (2025)
